Re: Organized Attempt to Steal Inherited Assets

Dear Edgewood Branch Manager:

I have reason to believe that my family's assets are now the target of the very same group that killed them all. Additionally, I have reason to believe that this group has employees working inside your branch.

Please lock my client profile to prevent any of their planned heists.

As former a customer of Wells Fargo, I have had a customer profile since 2009. I've heard that questions based on my relationship with Wells Fargo were asked of the group and they have not been able to answer them. Additionally Advanced Access codes have been sent to my phone I didn't share and I now notice my phone number is no longer recognized when I call into the bank.

I'm happy to answer any verification questions you may have. Please contact me at (470) 860-5486.

My name is Kelvin Eugene Williams and my social security number is 404-31-3870.

The assets they are trying to gain access to are in the name of John L. Crawley, my great uncle.

My checking account and savings account closed a couple of months ago due to a check being returned I received from a person I now know is part of the group. However, I know he opened an account at Wells Fargo Advisors because I received a debit card from them after my account was closed, the individual has since stolen my mailbox key.

Please understand that some of the assets, if they are able to steal them, are intended to be used to legitimize Danny as myself, whereupon he will assist the murderers of my entire family by explaining away their absence or to hide the massacre of Mount Calvary Baptist Church.

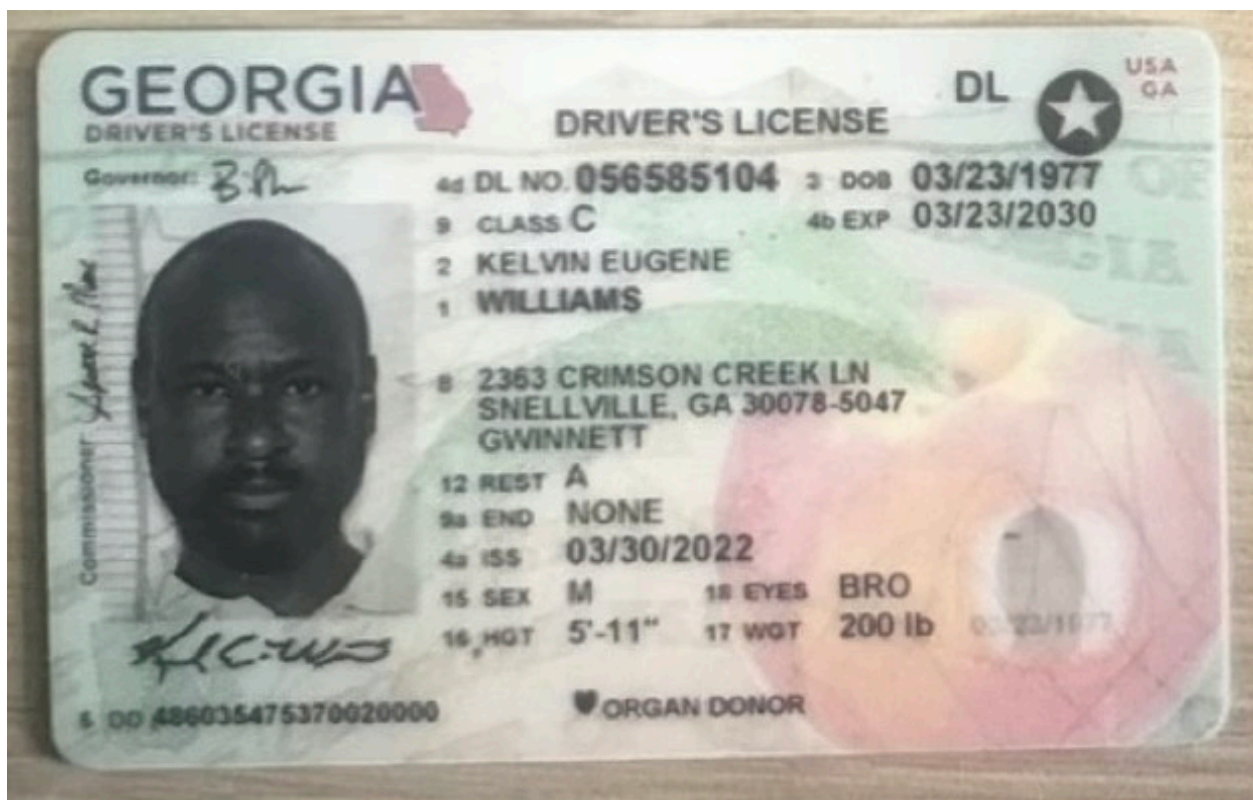

"Danny" is an employee of the CIA, and they were able to use their research powers to gain information about my family's assets and accounts. Information I am unable to ascertain since my family's homes were cleared of this information and I've been unable to get any assistance

from Wells Fargo. I've had to piece together information from conversations with him that led me to you.

Please understand I'm working through the loss of every member of my family within the past two years, the loss of my church family and assuming the role of pastor to stop further atrocities at my church (see: <https://github.com/MCBCMF/MCBCMassacre> — a repository the government has used numerous NSLs to try to take offline), while being hunted like a terrorist. I'm sorry, but this now places Wells Fargo and anyone assisting "Danny" or the CIA in a very bad position, as the story of my families that I've lost is breaking any moment.

Danny is now carrying an identity documents including a drivers license and birth certificate with my name, and his photo.

I'm including a photo of my actual drivers license from the time I reestablish my relationship with Wells Fargo a couple of years ago.

The individual pretending to be me is "Danny Williams" pictured in the center, he may be accompanied by the other two individuals. Danny is wearing a wig in this photo, once removed he looks remarkably like me in my identity documents which he has in his possession. I have reason to believe the only other member of my family, Cameron (Crawley) Richardson, has been kidnapped and held against his will to gain access to any assets held there may be brought in sometime today. Please notify the authorities and block access to the accounts. We are both the rightful heirs and I'm requesting the bank make sure I'm with him when things are released. Cameron should be alone when they verify if he's coming in his own free will.

Cameron may not realize he's not with me. We haven't been in the same room since he was an infant. Danny has extracted a lot of information from me, but if you have the branch call me I can quickly identify myself and prove it to him with family knowledge Danny won't have.

If you have any questions, please contact me at (470) 860-5486. This is the only number that Wells Fargo should be using to contact me.

Sincerely,  
Kelvin Eugene Williams
